The **Only** Roofing Contractor Your Company Needs!

WEST ROOFING SYSTEMS
INCORPORATED

Protect Your Investment & Extend the Life of Your Roof!

From the first day your roof is installed, it begins to age. Your roof's life cycle is influenced by weather, physical damage, roof top traffic and neglect.

Ongoing maintenance to your roof will yield long term savings by extending the roof system's life cycle.

The **MARS** program offers three levels to fit your roofing needs.

Level 1

- Visual Roof Inspection
- Cleaning of Drain Baskets and Gutters
- Roof Inspection Report

Level 2

- Visual Roof Inspection
- Cleaning of Drain Baskets and Gutters
- Debris Removal
- Small General Repairs Performed <1%
- Inspection Report for Larger Repairs, New Roof Options, & Cost
- All Seams & Flashings of Roof Top Units Inspected
- Leak Guarantee of no more than 3 visits** Excluding Larger Repair Areas

Level 3

- Visual Roof Inspection
- Cleaning of Drain Baskets and Gutters
- Debris Removal
- All Visual Repairs Performed
- Completed Roof Inspection Report with New Roof Cost
- CAD Drawing of Roof
- All Seams & Flashings on Roof Inspected
- Infrared Roof Survey
- Leak Guarantee of no more than 5 visits**

The National Roofing Contractors Association (NRCA) recommends period maintenance and repair be performed at least twice a year.

This service should be performed by trained and qualified personnel. Regardless of roof type or condition, whether or not West Roofing Systems installed it, we can provide maintenance and repair services for all of a building owner's roofing needs in a timely manner.
