----- For Immediate Release -----

West Roofing Systems, Inc. To Recognize The Importance Of Roofs, Roofing Industry During National Roofing Week, June 2-8

LaGrange, Ohio (June 2, 2019) – To raise awareness of the significance of roofs to every home and business, stress the value of professional roofing contractors, and promote the good deeds of the industry, West Roofing Systems, Inc. will recognize National Roofing Week taking place June 2-8.

Organized by the National Roofing Contractors Association (NRCA), National Roofing Week is a reminder that the roof is one of the most essential components of every structure. It is the first line of defense against natural elements, such as rain, snow or wind, yet it is often taken for granted until it falls into disrepair.

National Roofing Week enables roofing professionals to engage in their communities and inform the public about the essential role roofs, and professional roofing contractors play in every community, as well as the importance about making informed decisions about maintaining or replacing any roof system.

During National Roofing Week West Roofing Systems, Inc. will show our appreciation for our employees and community through a variety of events and projects in the community, including our partnership with Rebuilding Together of Northeast Ohio.

"It's important to step back and appreciate all that we do as an industry," said Jack Moore, President/CEO of West Roofing Systems. "I am proud to work with such a dedicated team of people here at West Roofing Systems."

Additional information about National Roofing Week can be found at www.nrca.net/National-Roofing-Week.
